## MUCK & SLUDGE REDUCER

- Great for Ponds with Rocks & Gravel Bottoms
- Rapidly Digests Muck Sludge
- Breaks Down Leaves, Fish Waste & Dead Algae
- Reduces Nutrients & Minimizes Pond Cleanouts

**24 SINKING  
TABLETS**

**TREATS 4,000 GALLONS  
FOR 6 MONTHS**

22.4 oz/635g (24 Tablets)

Ponds receive organic debris from many sources such as dead algae, leaves, twigs and fish waste. If left alone, these debris break down into muck and sludge and are a constant source of nutrients that can cause future water quality issues. Muck Defense® tablets contain a specialized blend of natural bacteria and enzymes that rapidly digest muck and sludge converting it to an odorless gas that escapes out of the water column unnoticed. Regular use of Muck Defense® also reduces the frequency of pond cleanouts and routine maintenance.

**DIRECTIONS FOR USE:**

Disperse Muck Defense® tablets evenly throughout your pond. It may take up to an hour for the tablet to completely dissolve. Works best when water temperatures are above 50°F. When temperatures are below 50°F, use The Pond Guy® Seasonal Defense®.

**ATTENTION:**

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. The Pond Guy® is not responsible for any loss of aquatic life.

**KEEP OUT OF REACH OF CHILDREN**

Avoid dust inhalation. Avoid contact with eyes, skin and clothing. If product comes in contact with skin or clothing, wash with soap and water.
